Dear fellow ISDS members,

This Springtime notice should remind you that September 23-26, 2010 in Bucharest Romania will be your ONE chance this year to re-commune with your ISDS compatriots—so COME!!! Join us at the ISDS 31st Annual Congress.

Our 4 co-chairs have put together another outstanding educational program again ranging from basic surgical skills to reconstructive surgery as well as cosmetic dermasurgery and high-tech energy-based techniques. The format includes both formal courses by world-renowned experts as well as free communications from our members who wish to teach as well as learn. Our corporate contributors will also have product-specific concurrent educational programs.

This will be our first ISDS foray into Eastern Europe--- in the land of Vlad the Impaler known through modern legend as Dracula. Though bloodthirsty vampires will not be part of our social evening program we will be able to sample and enjoy traditional Romanian cultural activities, dances and foods at our Dracula evening. You can leave your rings of garlic cloves at home. City tours of Parisian Bucharest and pre- or post-tours of Romania's remarkable mountains, Delta and traditional painted houses will highlight the unique character of this nation. So come to enjoy the country and our collegial meeting. Don't forget to remind your local dermatologic friends and your ISDS "annual buddies" that you are coming and that they should also come for a worldclass experience. Judy and I both have part of our heritage from Romania and we are anxious to experience it and have you join us in our learning and celebration. See you then

GARY BRAUNER MD
PRESIDENT, ISDS // CONGRESS CO-PRESIDENT

Dear fellow ISDS members,

It is my honor to invite you to come to Romania on the occasion of the 31st Annual Meeting of the International Society for Dermatologic Surgery to be held in Bucharest on September 23-26, 2010. Romania is part of the great family of the European Union. Romania is a fascinating country with forested mountains where wild bears and wolves roam freely, with rich plains and picturesque villages where old traditions are still a way of life, with natural preserves and monuments protected by UNESCO.

Bucharest, the capital city, is the place where history is alive. First mention of the town is in a document from 1459, signed by the famed ruler Vlad the Impaler, better known as Dracula. Bucharest is filled with impressive French-style buildings and a lively artistic life. Just wait until after dark and until the break of dawn you'll hear the sounds of jazz clubs, dance floors and casinos which are very legal in this country.

Our Congress venue will be the Radisson-SAS Hotel, a 5-star newly renovated structure, located in the posh Downtown, in an area filled with museums, luxury shops, posh restaurants, music halls and boutiques. We are planning city tours and trips in the country and a "Dracula Evening" filled with traditional Romanian food and folk dances. You can visit places like the castles Peles and Bran in the Carpathians, the outsidepainted monasteries in Bukovina, the Delta of the Danube or the Black Sea Coast. You can tour the 2007 cultural capital of Europe, the mediaeval town of Sibiu (Hermannstadt) or the seven fortified churches of Transylvania. But the Congress will also be serious work. Our slogan for 2010 will be "Global State and Future Trends in Dermatology". We promise you a high-level scientific program in a state-of-the-art venue. For those of you who never saw an East European country, this is your best opportunity. For those who already saw Romania, this experience will top everything you can ever imagine.
